Skills: React, Node.js, Typescript, JavaScript, AWS, GCP, Redis, Tekton, Terraform, Jenkins, NextJS, HTML, CSS, SCSS, Unity, Unreal, Python, Java, C#, C++, MySQL, AR, VR

Experience

Ford Motor Company | Ford Pro
Feb 2022 to Apr 2025

Senior Software Engineer | Product Anchor Detroit, MI

- Built a responsive platform for user engagement using React, Node.js, Redis, and GCP Cloud Run.
- Created and used Tekton CI/CD pipelines to deploy backend REST APIs and React microfrontend.
- Used Terraform as an infrastructure-as-code solution.
- Led a team of up to 12 engineers in planning, prototyping, developing, and deploying a production application.

Ford Motor Company Autonomous Vehicles
Nov 2020 to Feb 2022

Senior Software Engineer Detroit, MI

- Built backend services and APIs to facilitate the dispatch of autonomous vehicles.
- Worked on implementing and improving various algorithmic solvers for NP-hard problems.
- Interfaced with multiple customers to ensure satisfaction and continuous improvement.
- Worked on a production system that handled thousands of ride requests.

Vocal PowerHouse Systems, LLC vocalpowerhouse.net
Mar 2015 to Mar 2021

Software Engineer Grand Rapids, MI

- Developed a prototype responsive communication system and associated patent US11102021B2.
- Wrote backend, frontend, and API code for the entire system on a two-person team.
- Assisted in physical hardware development and testing.

Ford Motor Company
May 2018 to Nov 2020

AR/VR/XR Researcher / Developer Taylor, MI

- Was a lead developer on a small team that produced several proof-of-concept XR applications.
- Developed augmented reality software in Unity and Xcode for iOS, Android, Magic Leap, HoloLens, DAQRI.
- Developed virtual reality software in Unity and Unreal Engine for Vive, Oculus Rift, WMR, iOS, Android.
- Published numerous research briefs on the state of XR technology and demoed proof-of-concepts.
- Used ARKit, ARCore, and ARFoundation to develop AR software for mobile devices.

Ford Motor Company
Sep 2016 to May 2018

Plant Floor Systems Support Specialist Dearborn, MI

- Provided support and software development capabilities for a variety of automotive plants across the globe.
- Used Java, C#, and Python to significantly increase the speed and efficiency of data analysis from PLC systems.

Education

Michigan State University
Sep 2012 to May 2016

Bachelor's of Science, Computer Science & Engineering

Projects

Browsvr
